

75+

Ecosteryl 75+

Ecosteryl 75+ is designed for small collectors that want to treat their own infectious medical waste with an **on-site compact solution**. It prevents manual waste loading using an **automated container loading device**.

Capacities

75—100 kg/h
0.25—1.5 t/day

100%

Electric and
ecological

Microwave is the most eco-friendly solution for infectious medical waste treatment. Proven disinfection at min. $6\log_{10}$ (reduction of 99.9999%).

Powerful shredder with an anti-blocking system and waste reduced by 80% of its volume.

Dry, disinfected, unrecognizable and recyclable waste.

Capacities

The minimum processing capacity of Ecosteryl 75+ is 75kg per hour. This is 1,000L/h - 1,333L/h with a density of 0.075kg/L.

Ecosteryl 75 is an ideal solution if you have to treat from 250kg to 1,500kg medical waste per day.

Technical data - Ecosteryl 75+

Dimensions (L x W x H)	5.6m x 4.3m x 3.4m
Recommended height	6m
Weight	5 tons
Type of process	Automatic and continuous process
Electrical powers	4 axes shredder, 22kW power Microwave generator, 8kW power and 2,450MHz frequency
Typical power consumption	22kWh
Staff required	1 person can operate 2 machines
Installation, commissioning and training	On-site, by our team

Option

Remote monitoring

6m

Recommended height for loading part of the machine
